***Allowable Subject Matter***

1. Claims 1-9, 12, 15-23, 25-32, 34-36 and 38-45 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

a display of a backup set (1st computer system configuration of a plurality of computer system resources) concurrently with a restore set (2nd computer system configuration of a plurality of computer system resources) involving the transfer of data from a backup set to a recover set wherein users are allowed to view the backup set containing historical data so that users can see what can be restored and at the same time allowing users to view the restore set in a backup and recovery/restore operation. so that users can see what will be restored as recited in claims 16, 23 and 28.

Although Reuter et al. teach a substantial amount of the claimed matters, Reuter et al. fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Russo et al. (US 7,146,387 B1) teach a system and method for configuring and performing application backups and restores in diverse environments.

***Inquires***
